

IN GENIUS[®] IN UNICA

SEMPLICEMENTE GENIALE!

SIMPLY INGENIOUS!

SIMPLEMENT GÉNIAL!

IL DETTAGLIO CHE FA LA DIFFERENZA

THE DETAIL THAT MAKES THE DIFFERENCE

C'EST LE DÉTAIL QUI FAIT LA DIFFÉRENCE

Con **oltre 40 anni di esperienza** nella lavorazione dell'ottone, la nostra azienda è collocata nel comune di San Maurizio d'Opaglio (NO) a ridosso del Lago d'Orta, una piccola perla incastonata in un territorio ricco dal punto di vista industriale e naturalistico.

La grande **conoscenza dei materiali**, le **tecnologie più avanzate** di cui la nostra azienda dispone e soprattutto la voglia di circondarci di oggetti importanti, ci hanno portato alla creazione dei **prodotti** presentati in questo catalogo, **esclusivi, originali**, assolutamente "**MADE IN ITALY**".

La **lavorazione dell'ottone** e dell'acciaio avviene completamente all'interno del nostro laboratorio, utilizzando attrezzature di ultima generazione per la fresatura e la tornitura dei pezzi, per i quali partiamo da barre piene.

Estrema è l'attenzione rivolta alla **scelta dei materiali**, quali l'ottone e l'acciaio nelle varie tipologie e a tutti gli elementi accessori, per offrire alla nostra clientela **prodotti grande qualità**.

With over **40 years of experience** of brass workmanship, our company is located in Italy in the town of San Maurizio d'Opaglio (Novara) Italy, overseeing the Orta Lake, a little pearl in a territory rich of industry and nature.

The great **knowledge of the materials**, the most **advanced technologies** available in our factory and over all the desire of surrounding ourselves with important products, has allowed us to create the **exclusive and original products** presented in our catalogue and **MADE IN ITALY**.

The **working of brass and steel** takes place entirely in our workshop using the latest generation equipment for milling and turning of pieces for which we start from a full bar.

Extreme attention is given to the **selection of the materials**, like brass and steel in all its various types, and to all the accessory elements, which give us the chance to offer our clients **great quality products**.

Fort de plus de **40 ans d'expérience** dans la transformation du laiton, notre usine est située dans la municipalité de San Maurizio d'Opaglio (NO) à côté du Lac d'Orta, une petite perle coincée dans un territoire riche sur le plan industriel et naturaliste.

La grande connaissance des matériaux, les technologies les plus avancées dont notre usine dispose et surtout l'envie de s'entourer d'objets importants, nous ont menés à la **création de produits** présentés dans ce catalogue, **exclusifs, originaux**, totalement «**Made in Italy**».

La transformation du **laiton** et de **l'acier** est complètement à l'intérieur de notre laboratoire, en utilisant des équipements de dernière génération pour le fraisage et le tournage des pièces, pour lesquels nous partons de la barre en laiton pleine.

Beaucoup d'attention est adressée au choix des matériaux, comme le laiton et l'acier dans les différentes typologies et à tous les éléments accessoires, pour garantir à notre clientèle des produits de **très haute qualité**.

INFORMAZIONI TECNICHE E AVVERTENZE
TECHNICAL INFORMATION AND ADVICE
RENSEIGNEMENTS TECHNIQUES ET AVERTISSEMENTS

Pressione di utilizzo: 0 ÷ 10 bar
Campo di impiego: Settore idrotermosanitario

Temperatura di utilizzo: 5 ÷ 90°C

Portata con pressione di linea a 3 BAR: 30 LITRI AL MINUTO / a **2 BAR:** 24 LITRI AL MINUTO

Liquidi a contatto: Acqua

Water pressure usage: 0 ÷ 10 bar
Usage sector: Sanitary plumbing

Temperature usage: 5 ÷ 90°C

Water supply with line pressure at 3 BAR: 30 LITRES A MINUTE / at **2 BAR:** 24 LITRES A MINUTE

Liquid contact: Water

Pression d'exercice: 0 ÷ 10 bar
Domaine d'application: Secteur hydro thermo sanitaire

Température d'exercice: 5 ÷ 90°C

Liquides à contact : Eau

Débit d'eau avec pression de conduite à 3 BAR: 30 LITRES PAR MINUTE / à **2 BAR:** 24 LITRES PAR MINUTE

SEMPLICEMENTE GENIALE!

*Simply ingenious!
Simplement génial!*

Il primo ed unico sistema al mondo che rivoluziona l'utilizzo dell'acqua.

The first and only system in the world that revolutionizes the use of water.

Le premier et seul système au monde qui révolutionne l'utilisation de l'eau.

Sistema inGENIUS® è una **innovativa tecnologia** brevettata da SG, realizzata grazie all'esperienza pluridecennale nella progettazione e realizzazione di componenti per l'idraulica nell'edilizia residenziale.

inGENIUS® quindi è la valvola che, grazie all'**aggancio** e lo **sgancio rapido** dei punti acqua, permette a chi realizza impianti di **velocizzare le operazioni di installazione e collaudo in pressione evitando** il montaggio dei tappi provvisori e **lo svuotamento** durante l'installazione di sanitari e rubinetteria.

Questo sistema di innesto universale si apprezza anche **in caso di perdite d'acqua** dai rubinetti o dai flessibili, in attesa della riparazione è sufficiente staccare l'innesto e l'acqua automaticamente si ferma lasciando l'impianto in pressione e perfettamente utilizzabile.

*The inGENIUS system is an **innovative technology** patented by SG, created thanks to decades of experience in the design and manufacture of components for plumbing in residential buildings.*

*inGENIUS is the valve that, with the **quick coupling and release** of the water points, allows those who make plumbing systems **to speed up installation** and pressure testing operations, avoiding the assembly of temporary "**plug for test facility**" and the **emptying of the system** during installation of sanitary ware and taps.*

*This universal coupling system is also appreciated in the event of **water leaks from the taps** or connection hoses, while waiting for the repair it is sufficient to disconnect the coupling and the water automatically stops leaving the system in pressure and perfectly usable.*

Le système inGENIUS est une **technologie innovante** brevetée par SG, créée grâce à des décennies d'expérience dans la conception et la fabrication de composants pour la plomberie dans les bâtiments résidentiels.

inGENIUS est la vanne qui, avec **arrêt instantané de l'eau pour une déconnexion rapide** de son raccord, permet à ceux qui fabriquent des systèmes de plomberie pour **accélérer les opérations d'installation** et de test de pression, en évitant le montage d'un "**bouchon pour banc d'essai**" temporaire et la **vidange du système** lors de l'installation de sanitaires et robinetterie.

*Ce système de raccord universel est également apprécié en cas de **fuites d'eau au niveau des robinets** ou des durites de raccordement, en attendant la réparation, il suffit de débrancher le raccord et l'eau cesse automatiquement de sortir du système en pression et parfaitement utilisable.*

Questo è il cuore di

This is the heart of
Ceci est le cœur de

IN GENIUS[®]

Pratico, semplice, geniale!

Practical, simple, ingenious!
Pratique, simple, ingénieux!

L'Attacco rapido acqua a muro universale **IN GENIUS** dotato di valvola interna con tenuta fino a 700 bar.

I VANTAGGI:

- Consente l'innesto ed il disinnesto istantaneo di tutti gli utilizzi idrici;
- Impianto idraulico sempre disponibile in pressione, evita le perdite di tempo per continui svuotamenti e riempimenti;
- Facilita le operazioni di test;
- Elimina i tappi di chiusura in fase di cantiere;
- Rosone di finitura posizionabile dopo il montaggio dell'attacco a Muro.

Universal wall bracket **IN GENIUS** with internal valve sealing tested up to 700 bar.

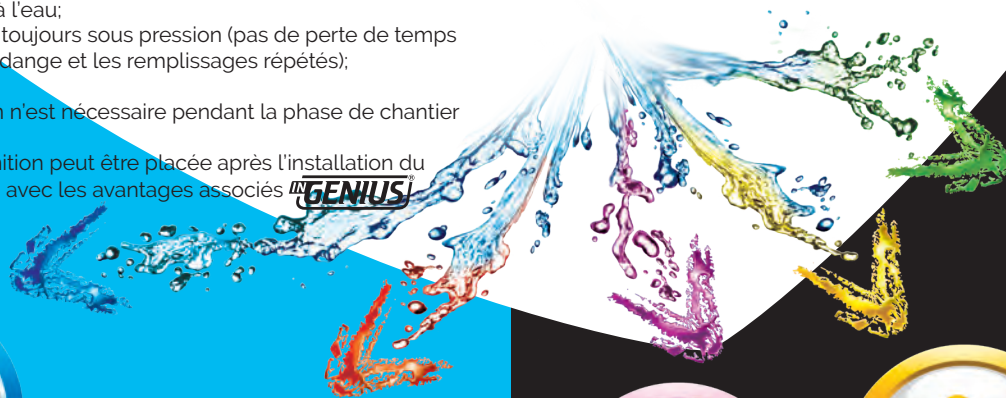

THE ADVANTAGES:

- Quick connection / disconnection of all water uses;
- The system is always in pressure (no waste of time caused by repeated emptying and filling);
- Quick coupling and disconnection for the test activities;
- No plugs are needed during the installation phase;
- Finishing rosette to be positioned after the installation of the wall fittings, with the associated benefits.

La prise murale universelle **IN GENIUS** dispose d'un clapet interne avec étanchéité jusqu'à plus de 700 BAR.

AVANTAGES:

- Permet la connexion et la déconnexion rapide de toutes les fonctions liées à l'eau;
- Le système est toujours sous pression (pas de perte de temps causée par la vidange et les remplissages répétés);
- Facilite les test;
- Aucun bouchon n'est nécessaire pendant la phase de chantier et de montage;
- La rosace de finition peut être placée après l'installation du raccord au mur, avec les avantages associés **IN GENIUS**.

DA OGGI NON CI SARANNO PIÙ SOLO PRESE ELETTRICHE

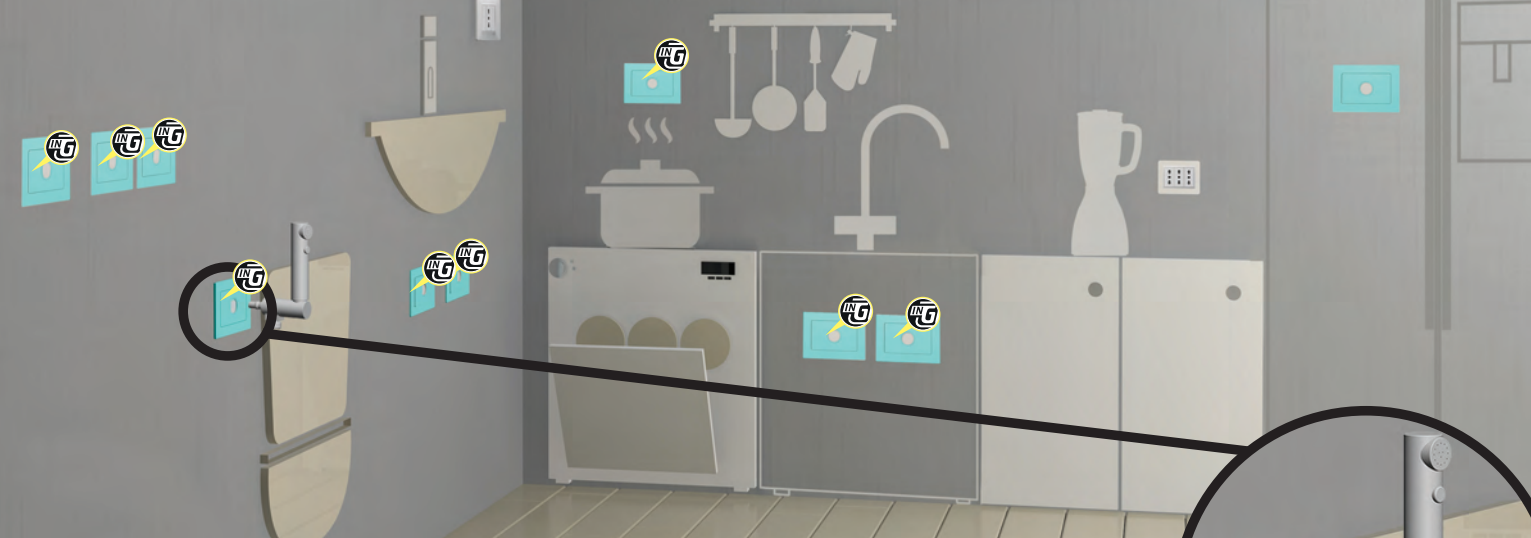

FROM TODAY THERE WILL BE NOT JUST ELECTRICAL SOCKETS

À PARTIR D'AUJOURD'HUI, IL N'Y AURA PAS QUE DES PLAQUETTES ÉLECTRIQUES DANS VOTRE MAISON!

RIVOLUZIONA IL TUO MODO DI FARE CASA!

REVOLUTIONISES YOUR WAY TO MAKE HOUSE!

RÉVOLUTIONNEZ LA FAÇON DE FAIRE VOTRE MAISON!

ATTACCATI ALLA PRESA...
CONNECT THE SOCKET...
CONNECTEZ-VOUS À LA PRISE...

- Finalmente la **"gestione dell'acqua"** non è più un semplice vincolo, ma diventa un **piacevolissimo esercizio di stile**.
- Dal design "minimal" ed unica nel suo genere, la presa **UNICA** è **la soluzione che stavi cercando**.
- **Mettila dove più ti piace**, dove pensi possa esserti utile... solo così scoprirai il suo **vero potenziale**.
- Cambia il tuo modo di concepire l'impianto idraulico
- **Non limitare la tua fantasia**
- Da oggi nelle case non esisteranno più **solo** prese elettriche nei muri.

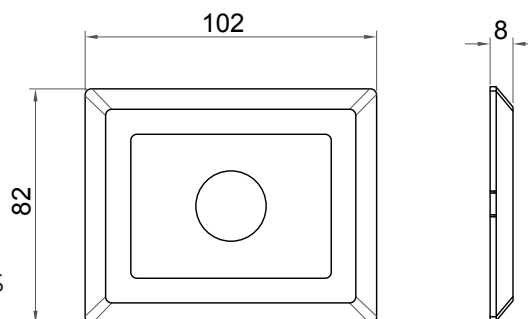

- After a long time the **"water management"** can be a **pleasant exercise in style**.
- By minimal design and one of a kind. **UNICA** socket is **the solution you are looking for!**
- **Place it where you like**, where you think it may be useful... Only in this way you will discover its **true potential**.
- Change your way of thinking to the hydraulic system.
- **Don't limit your imagination**.
- In the houses will no longer exist **only** electrical sockets in the walls from today

- Enfin la **"gestion de l'eau"** n'est plus une contrainte, mais il devient un **bon exercice de style**.
- Avec un design minimal et unique en son genre, la prise d'eau **UNICA** est **la solution que vous recherchez**.
- **Mettez-la où vous aimez**, où vous pensez pourrait vous être utile... alors seulement, vous pourrez découvrir son **vrai potentiel**.
- Ça change votre vision d'envisager le système hydraulique.
- **Ne limitez pas votre imagination**.
- À partir de demain, il n'y **aura plus que** des plaquettes électriques dans votre maison!

PROVA DI TENUTA STATICA

COMPONENTE IN PROVA: Raccordo rapido In Genius
 PRODUTTORE: S.G. Via Roma S. Maurizio d'Opaglio (No)
 ATTREZZATURA DI PROVA: Banco prova idraulico
 MANOMETRO CAMPIONE: BR 02 0-1000 bar

Esecuzione prova con pressione statica incrementata gradualmente sino al valore di scoppio
 Temperatura ambiente: 20 ± 5 °C - Temperatura acqua: 20 ± 5 °C

Rif.	Componente	P. scoppio [bar]	Note
002	Raccordo InGenius	745	prova eseguita con acqua a 1 ambiente salita in pressione graduale

Esito: positivo: il valore della pressione di scoppio è nettamente superiore al valore limite normalmente definito quattro volte superiore alla pressione massima operativa

Allegati: report di prova del manometro

Data: 5/12/2013 Operatore: Alberto Giussani

La strumentazione utilizzata per le prove è provvista di dichiarazione di collaudo con riferibilità ai campioni primari Accredia

PROVE DI TENUTA A PRESSIONE PULSANTE

pulsing pressure test

Component under test: raccordo rapido In Genius da 1/2" Gas
 Manufacturer: S.G. Via Roma S. Maurizio d'Opaglio (No)
 Test bench: Test Bench with acquisition System

Test description: pressure cycles from P1=5 to P2= 50 con frequenza di 1 Hz
 Temperature ambient: 20 ± 2 °C - Water Temperature 15 ± 2 °C

Rif.	Component	N° CYCLES	Note
001	raccordo rapido	100+100+100	Sequence of 3 test cycles
002	raccordo rapido	100+100+100	Sequence of 3 test cycles
002	raccordo rapido con innesto inserito	100+100+100	Sequence of 3 test cycles

Result: positive no leaks during the test
 Note: The component N° 2 has been tested at max. pressure up to the burst limit at 745 bar
 attached: testr reports

Data: 5/12/2013 Operatore: Alberto Giussani

The instrumentation used for the test is with calibration reports with reference to official national standard ACCREDIA
